**KUMBA RECEIVES SUMMONS RELATING TO SENEGAL PROJECT**

Diversified metals and mining company Kumba Resources Limited (Kumba) today announced that a summons has been served on the company by Lithos Corporation (Pty) Limited. The summons is for a claim of US\$196 million. The claim is based on an alleged breach of contract, by Kumba, in relation to an iron ore deposit at Faleme in Senegal.

Kumba believes that the claim is without foundation and that Kumba will have no liability with regard to this matter and has received legal advice confirming this view. Kumba will take all steps necessary to defend the action.

**Editors Note:**

Kumba Resources Limited, one of the largest South African-based mining companies listed on the JSE Securities Exchange, is a focused metals and mining company with a diverse commodity portfolio consisting of iron ore, heavy minerals, coal, base metals and industrial minerals. ## **IRON ORE EXPORTS RESUME AT SALDANHA**

Diversified metals and mining company Kumba Resources Limited (Kumba) today announced that its iron ore exports through the port of Saldanha have resumed on 15 October 2006, ahead of schedule following a Transnet initiative to re-commission one of its two ship loaders at the port.

Kumba announced on 28 September 2006 that exports of iron ore from the port, operated by SA Port Operations, a division of Transnet, had been disrupted following the failure of ship loader No.2 on 26 September 2006.

The initiative to re-commission ship loader No.1, which sustained damage to its feed conveyor during the failure, was completed ahead of schedule and Kumbas iron ore exports are now back on track. Kumba and its customers are currently re-scheduling the shipping in order to minimise the impact on this years shipping volumes.

Kumba regrets the impact this development had on some of its customers.

**KUMBA TRANSACTION TEAM RELEASED FROM SHARE TRADE RESTRAINT**

Following the publication and mailing of the empowerment transaction documentation by Kumba on Monday, 9 October 2006, the company's project team members were released from a restraint prohibiting them from trading in Kumba shares or share options. The team was tasked to develop and implement an empowerment transaction for Kumba, which resulted in a broad framework agreement among all the parties to the transaction being first announced by way of a cautionary announcement on SENS on 13 October 2005. This was subsequently followed by the terms announcement, which was published on SENS on 4 October 2006.

The development of the transaction started in March 2004 and as a result of the confidentiality and price sensitivity thereof, members of the team have been restrained from trading in Kumba shares or options since that date. With the publication of the detailed terms of the transaction and the signing of all the legal agreements, on SENS on 4 October 2006, the cautionary was withdrawn, allowing members of the team working on the transaction to trade in Kumba shares and share options. The team members, including Kumba executive directors Dr Con Fauconnier, Charles Meintjes, Dirk van Staden and Mike Kilbride, have exercised their rights in respect of the sale of a portion of their Kumba shares and options.

As Dr Fauconnier, with the concurrence of the Board, will retire during 2007, he is making use of this opportunity to restructure and re-balance his portfolio of shares. He will continue to hold shares in Kumba through Exxaro and Kumba Iron Ore after the unbundling of the company.

Mr Meintjes has expressed a desire to leave the employ of Kumba and resign his position on the Board on completion of the transaction to pursue his own interests.

Both Mr Van Staden and Mr Kilbride will continue their employment with Exxaro as executive directors for at least two years, with the concurrence of the Exxaro Board.

It is against this background that Kumba makes the following announcement:  
**DEALINGS BY DIRECTORS OF KUMBA IN SHARES AWARDED IN TERMS OF THE KUMBA RESOURCES MANAGEMENT SHARE SCHEME AND KUMBA RESOURCES MANAGEMENT OPTION SCHEME**  
(collectively the Scheme)

In terms of the JSE Listings Requirements, notice is hereby given that the following directors of Kumba has exercised and traded shares in respect of vested and unvested options, after having received clearance to do so in terms of the JSE Listings Requirements 3.66. The shares were granted in terms of the Scheme. Regarding unvested options, in terms of an agreement entered between Kumba Resources Limited, Kumba Iron Ore Limited, Kumba Resources Management Share Trust and Kumba Iron Ore Management Share Trust, participants are allowed, as part of the unbundling of Kumba Iron Ore and the separate listing thereof, to exercise their options under the Kumba Management Share Scheme. The proceeds of such exercise of options will however, in terms of this agreement be dealt with as follows:

1. The directors may apply a portion of the proceeds to settle their tax obligations.
2. The residual cash proceeds in the Kumba Management Share Trust will be divided between the latter and the Kumba Iron Ore Management Share Trust with reference to the weighted average prices of the company's and Kumba Iron Ore Limited's shares for a period of 22 JSE trading days after the listing of Kumba Iron Ore Limited.
3. The residual cash proceeds related to the company that employs the participant will be released on the dates that the original options would have vested.
4. The residual cash proceeds related to the company that does not employ the participant will be released on the date on which the original options would have vested or 24 months from the unbundling, whichever is the earlier.

**RE-COMMISSIONING OF SHIP LOADER AT SALDANHA ON SCHEDULE**

Diversified metals and mining company Kumba Resources Limited (Kumba) today reported that its iron ore exports through the port of Saldanha are expected to resume about 19 October 2006 in line with a Transnet initiative to re-commission one of its two ship loaders at the port.

Kumba announced on 28 September 2006 that exports of iron ore from the port, operated by SA Port Operations, a division of Transnet, had been disrupted following the failure of ship loader No.2 on 26 September 2006.

The initiative to restore ship loading operations is progressing well and a dedicated team is making good progress to re-commission ship loader No.1 which sustained damage to its feed conveyor during the failure.

The project to re-instate ship loader No.2 will not negatively affect loading capacity as normal ship loading involves the operation of one ship loader at a time. However, having one ship loader out of operation will impact on the flexibility of the ship loader maintenance and general operating schedules.

The breakdown will delay Kumbas short term iron ore export schedule but trains from the Sishen mine to Saldanha Bay remain fully operational and the ports iron ore stockpile capacity will allow continued feed to Saldanha Bay.

Kumba regrets the impact this development may have on some of its customers and is taking steps to minimise potential disruptions. Customers will be kept abreast of developments on an ongoing basis.
